## CAREER OBJECTIVE

I am a skilled Front-End Developer with prior experience at Stutern. Throughout my journey, I have actively engaged in structured learning stages and collaborated with teams on various projects. This hands-on experience has not only proven my proficiency, but also highlighted the potential for further knowledge growth. My passion for learning is unwavering, and I am eager to explore new horizons in the Tech field. I am enthusiastic about contributing to an organization and continually expanding my skills. I am eagerly anticipating the opportunity to work in an environment that fosters both personal and professional development.
